EDUCATION

Virginia Tech
Blacksburg, VA • 05/2023

Bachelor of Science: Theory, Design, Implementation
- Ranked in Top 25% of class CS 3754 Cloud Software Development
- Relevant Coursework: Front-end Development & Back-end Development
- Capstone Project: MessageShark is a discord bot we build to targeting message management specifically. I was working on back end development. I developed various functionalities. I also built a leveling system that users gain experiences by sending proper massages and receive roles when they reach certain levels. AI detection is including in this project]

PROFESSIONAL SUMMARY

Proficient in Python, Java, and JavaScript. Confident in web development (HTML, CSS, JavaScript, React). Experience with back-end development (using IntelliJ IDEA). Strong problem-solving and analytical skills. A hardworking and passionate job seeker with strong organizational skills eager to secure an entry-level position. Ready to help the team achieve company goals.
